```java
public class Puzzle12 {

    private static String answer = "Yes of course.";

    public static void main(String[] args) {
        String answer = "Not explicitly.";
        System.out.println("Will puzzles be on the exams?");
        System.out.println(answer);
    }

}
```

Study Focus (in order of importance)

1. Concepts covered on assignments
   - Assignment 1
   - Assignment 2
   - Assignment 3
   - Assignment 4 (problem 1 only)
2. Concepts covered in lectures
   - Everything except points-to analysis topics
3. Concepts covered in readings
   - Everything except points-to analysis topics

- In addition you should feel comfortable drawing a control flow graph and data flow graph given a small piece of code.
